

MB-C50 S2

“MB’S little **work of magic**”

The MB-C50 is the smallest crusher bucket in the MB product line, weighing less than one Ton and designed to work on excavators starting from 4 Ton. It is suitable for mini excavators and great for small crushing jobs.

Due to its reduced size and weight, the MB-C50 has proven to be particularly useful in landscaping and restricted areas, ensuring high performance in small size with a production rate of up to 10 m³/h.
