

MB-LS220

“Mighty and Powerful”

The largest screening bucket designed for backhoe loaders and loaders is ideal for the selection of natural materials in quarries and large yards. It can be used in pre- and post-crushing. By screening the materials before crushing, the MB-LS220 can reduce up to 60% of the time spent crushing.

It is particular suitable for backhoe and loaders from 26,500 to 77,200 pounds.

Like the other MB screening buckets, the MB-LS220 has interchangeable panels that are available in different sieve sizes, depending on the needs of the job. With easy-to-assemble screen panels, changing from one material output size to another is quick and simple.

PRIMARY SELECTION:

- WASTE MATERIAL
- DEMOLITION MATERIAL
- EXCAVATION FILLING MATERIAL
- STONY GROUND RECLAIM
- PEBBLES IN STREAMS
- DEBRIS IN BEACHES
- NATURAL STONE S CLEANING
- MINES AND FOUNDRIES MATERIAL
- URBAN DEBRIS
