“MB’S little work of magic”

The MB-C50 is the smallest crusher bucket in the MB product line, weighting 1,654 lbs and designed to work on excavators starting from 8,800 lbs. It is suitable for mini excavators and great for small crushing jobs.

Due to its reduced size and weight, the MB-C50 has proven to be particularly useful in landscaping and restricted areas, ensuring high performance in small size with a production rate from 5 cy/h to 13 cy/h, depending on the output adjustment.
