

MB S.p.A New Version of the Bucket Crusher

MB S.p.A—a Vicenza company and leader in the production and sales of bucket crushers, was present at the Intermat trade fair in Paris (took place between 20 to 25th of April) to exhibit its latest product, the new version of bucket crusher, the result of ongoing investments in technological research and the continuous attention to its customers' needs. The company has decided to present this new product during one of the most significant international trade fairs in construction sector to highlight the significance of the event.

With an in-depth research of the MB team and technical engineers, the historical model has been transformed to offer an even more revolutionary product in the market. The company is committed to the constant satisfaction of customers' requirements, ever attentive to their needs, attentive listening to all problems faced every day on construction sites, finding solutions most suited to the various international situations in which MB S.p.A. operates. Due to the long-

lasting relationships and loyalty of clients, MB can produce bucket crushers that represent a valid work tool. The new version of the bucket crusher is in fact more resistant in work, featuring a more compact size and improved structural layout to facilitate operator manoeuvres on the excavator.

Despite the world crisis affecting all sectors, MB confirms its success and keeps on investing in research and development, giving priority to vertical specialization in the production of a single product that enables the guarantee of high quality and top performing bucket crushers. Also, company participation in major national and international events in this sector has enabled MB to establish and strengthen

relationships and loyalty with clients, who always receive special attention.

At the Intermat fair, MB S.p.A. presented a historical product of the MB house, in a modernized version, once again demonstrated that the investments in research and technology offered to clients ensure that the company achieves the maximum level of quality and satisfaction.
