

MB S.P.A. RELEASES ANOTHER AMAZING PRODUCT

The Vicenza-based company triumphs once again with
The Universal Quick Coupler

MB S.p.A., the Vicenza-based company is a world leader in the production and sale of crusher buckets and never ceases to amaze with new developments. In 2010, the company has released another brilliant product, the Universal Quick Coupler. This winning piece of equipment, enables quick and easy attachment changes during on-site jobs.

A new accessory that once again attests to the company's relentless efforts to innovate and be innovative. MB create work tools that are increasingly cutting-edge, flexible and user friendly, just like its unique crusher buckets.

Available in seven versions, depending on the excavator and the pin on which it is assembled, the new Universal Quick Coupler allows fast and efficient attachment of all kinds of equipment, from the crusher bucket to the hammer, from the traditional bucket to the drill, can all be attached to the same excavator, with very short installation times.

This new product by MB significantly improves pick-up geometry by reducing the distance between the excavator arm and the equipment used, thus speeding up attachment changes. And that is not all! The strain on the excavator is also diminished, thanks to a weight reduction of more than 50% at just 80kg, compared to traditional couplers offered on the market today, which weigh up to 150 kg.

This Universal Coupler is efficient and versatile making the changing of attachments much easier by enabling the connection of attachments on both sides (front and back) simultaneously.

MB S.p.A., the Vicenza-based company is a world leader in the production and sale of crusher buckets and continues to occupy its place in the front lines of the demolition and recycling sector. Constant research by a competent team ensures that the company is always one step ahead by offering work tools that are an 'absolute must' at construction sites.

The equipment offered by the company has made it extremely competitive and widely known on the international market, in just a few short years.

MB S.p.A., was founded in Breganze in 2001, today it boasts exports to more than 100 countries worldwide and is especially renown for both the innovation and technology of its products and the quality of its service. The ability to react to the market and the technical assistance provided to its many customers, have contributed to the growth of MB's brand throughout the world.
